## IT SUITS!

Hon. Joe McDonald Interviewed.

He Likes Cleveland and Says Indiana is for Him in 1888 if He Wants the Presidency Again.

The Statesman Going to Make a Brisk Campaign for the Hoosier Democracy.

OUR JOE.

The Hoosier Statesman Talks Politics at New York.

NEW YORK, Sept. 13.—Ex-Senator Joseph E. McDonald was asked how Indiana would go this fall, and said: "I think it will undoubtedly go democratic by a large majority. The prospects were never better. The people are thoroughly united, and believe in the successful future of the national democratic party. We have no cause to complain at Mr. Cleveland's policy. Our state is thoroughly satisfied as far as federal patronage is concerned. We do not care anything about civil service reform but we do not censure the president for carrying out his letter of acceptance. Indiana heartily indorses the administration; so you see there is no reason why we should not carry the state."

"Is it true that you are a candidate for the United States senate?"

"If the legislature is democratic my name will go before the caucus. We usually do not have candidates for the senate until after the election."

"How will the congressional race be in Indiana?"

"The democrats will carry a majority. As to the next national congressional representation I do not predict a larger majority than we have at present. There may be a little falling off in some of the states. However, I do not think the general result will effect the democratic majority."

"Will you make any speeches this fall?"

"Yes; I shall enter the campaign in my state and work for the success of our ticket."

ON THE TARIFF ISSUE

I shall advocate a tariff for revenue, and a reduction on many articles. Wool should go on the free list, and several other articles. Prohibition? Well, the prohibitionists in my state will draw merely from the republicans. We have defined our position clearly on the liquor question. We are in favor of a license."

"Do you think the president has lost popularity by vetoing private pension claims?"

"On the contrary, he has added to his popularity. It took a man of nerve to veto these bills. Somebody had to do it. There would have been no end to pension claims, many of them without the slightest foundation. Why, our pension list now exceeds twice that of the whole of Europe. It amounts to \$60,000,000, a sum as great as our national expenditures before the war. No, the president has greatly strengthened himself by his action. He will be nominated in 1888, and elected, too. The course he has taken in the main has given satisfaction. It is very hard to predict two years in advance, but from the present outlook I feel sure Mr. Cleveland will certainly be."

THE CHOICE OF THE DEMOCRATS.

On the republican side I think either John Sherman or Senator Allison, of Iowa, will head the ticket. Mr. Blaine has many enthusiastic admirers, and so has General Logan, but I think they will both be beaten by the two western senators. I think President Cleveland can be re-elected without the aid of the mugwumps as a party. As individuals their votes will go to swell his majority."

"Do you think the president will change his cabinet before 1888?"

"No, I do not. Mr. Manning, who is one of the ablest members, may resign on account of his health, but I think that President Cleveland has not taken into consideration the possibility of his not being able to complete his term of office."

"Some mention was made of your being offered a cabinet position."

"That was all newspaper gossip, and nothing in it."

"How is the telephone suit coming on?"

"Well, in two years the testimony

perhaps will be taken, as a preliminary to the endless litigation to follow. The onus is upon the government, and it has to show that Bell did not invent his telephone and have it properly patented before others."

IT'S A HUMMER.

The Great Inter-State Fair Surpasses all Expectations and Will Loom up Big.

The great Inter-State fair does not open until to-morrow, but already there are most manifest reasons for saying that the exhibit is going to be the largest and most varied ever seen here before. By noon to-day the fruit shelves were all crowded, and the management are preparing to build additional room. The chicken house is crowded, and other sheds are being fitted up to accommodate the fine poultry. Men are now waiting for room to exhibit their stock and the horse stalls are nearly all occupied. The capacity of the fair buildings must be doubled, as indeed the managers anticipated no such rush as presents itself. The art department, fancy work tables and exhibit by the merchants surpasses all former efforts. So it is in every line and when a stock man drove fifty sheep into the grounds this morning, the fair promoters had to wonder. The speed department is jammed and there are so many good horses in the field that every race must be for blood. It is no exaggeration to say that this is the greatest fair ever held in Indiana and people can see it and satisfy themselves.

FAIR NOTES.

It's a hummer.

The fair opens to-morrow.

Everybody is going to the fair.

Thursday will be the big day.

There will be a big poultry show.

The shops will all close Thursday.

The weather is clear, cool and delightful.

This will be the biggest fair on record.

An army of men are at work on the grounds.

Fast horses and exhibition stock is crowding in.

There was pretty lively work on the track this morning.

Every premium offered by the association this year will be taken.

There is a rush being made for eating quarters, lemonade stands, etc.

This is splendid weather for a fair and the railroads promise immense crowds.

The schools will all close two days to give the children a chance to see the fair.

The horsemen say that the track here is the fastest they have seen yet in the big circuit.

The Christian church people opened their eating house yesterday and fed numerous hungry people.

Numerous lots of cattle, hogs, and chickens arrived Saturday and yesterday and were assigned quarters.

Thursday will be the big day. The balloon ascension is on that date and the occasion will be made a general holiday.

Ferd F. Boltz had his horse, George B., on the track last evening and "gave him a whirl," just to keep up a circulation.

Maxwell, of Lexington, Ky., has a string of eight as fine horses as a person would want to look at, already on the ground.

There will be as many entries in the speed department here as there was at Toledo last week, and they had one of the most successful fairs there ever known.

The imported French Norman stallion with a mane that touches the ground, arrived yesterday. He is owned at Marion, Ohio, is nineteen years old and is a wonder to gaze upon.

BLAINE-NEVINS.

James G. Blaine and Miss Marie Nevins Quietly Married.

NEW YORK, N. Y., Sept. 13.—The World this morning publishes the following: "James G. Blaine, jr., the youngest son of Ex-Senator James G. Blaine was married in the rectory of the St. Leo's Roman Catholic church in this city, last Monday afternoon, to Miss Marie Nevins, daughter of Col. Richard Nevins, of Columbus, Ohio. The ceremony was performed by Father Thomas J. Ducey, pastor of the church, the contracting parties having satisfied him that there was no impediments to the union. There was no one else present. Miss Nevins is from one of the oldest and most distinguished families in Ohio. Her grandfather was Hon. Samuel Medary, long an editor of the Ohio Statesman. Young Mr. Blaine is a favorite son of his distinguished father; is about twenty years old and has not yet completed his collegiate course. Frank Nevins, the youngest son of Col. Nevins, has been in business at Augusta, Maine, for several months past. His sister, Marie, visited him in Augusta the past summer, and there met for the first time, James G. Blaine, jr. She had known other members of the family in Washington, where she spent two winters. Miss Nevins joined her parents here last Friday. They took rooms at the New York hotel. It is understood that Mr. Blaine followed very soon after Miss Nevins' departure from Maine and was the guest of her parents at the hotel. Miss Nevins yielded to the very urgent desire of Mr. Blaine, for immediate marriage. Mr. Blaine applied to Arch Bishop Corrigan on Saturday, September 4th, for a dispensation, Miss Nevins being a Catholic, and on Monday they were married. Miss Nevins, then for the first time, informed her family and with her happy young husband, started for Augusta to apprise his father. Miss Nevins is a young lady of nineteen years, has fair hair, handsome presence and an exceptionally beautiful face. She was educated at the convent of the Sacred Heart, in Cincinnati.

El Coyote's Forces Dispersed.

They report that his men dispersed and crossed the Rio Grand and fled into Texas before the troops could catch them. This it is supposed will put an end to the revolution for the present. There is, however, a strong feeling of disapproval of the present government, which is silenced only by the presence of troops in large numbers.

It is all Untrue.

## UNCLE SAM'S PRINTERS.

THOMAS E. BENEDICT, THE NEW PUBLIC PRINTER, AND HIS WORK.

The Largest Publishing House in the World—A Monument to the Gallantry of Congress, and the Natural Desire to See Their Forensic Efforts in Print.

The office of public printer, that was for so long a time a bone of contention, has at last been handed over to Mr. Thomas E. Benedict, of New York, who was not an applicant for the position, and whose name was not even thought of by wisecracks in connection with the place.

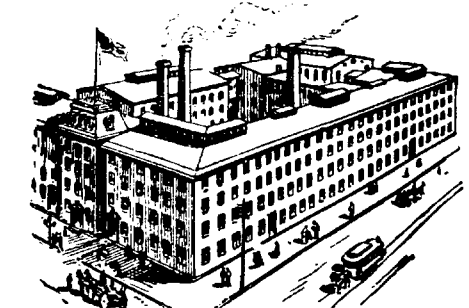

THOMAS E. BENEDICT.

Thomas E. Benedict was born at Warwick, Orange county, N. Y., in 1839. His education was obtained at the common school and at the Warwick institute. He engaged in teaching during his early years, and drifted thence into a railroad office, and finally into bookkeeping. He always had an affinity for printing offices, however, and where he lived, was sure to be an industrious correspondent of the local newspaper. He moved to Ulster county in 1863 as a bookkeeper of the Ulster Iron Rolling mill, and in 1870 started The Ellenville Press in partnership with his brother, G. H. Benedict. The paper gained a reputation for its vigorous Democracy, and in 1873 the firm purchased The Banner of Liberty, which they conducted as a staunch Democratic weekly, gaining for it a circulation that extended to every state and territory of the Union. In 1879 Mr. Benedict was elected to the New York legislature, and re-elected for four successive terms, he gained by the confidence and friendship of Governor Cleveland, Daniel Manning and other leading Democrats, and in 1884 was appointed deputy controller, which office he has since filled. He is known especially for his executive ability and unblemished integrity.

Mr. Gilbert H. Benedict, the new chief clerk to the public printer, is a brother of his chief, and was appointed by Public Printer Rounds before his retirement.

Mr. Benedict was born at Warwick, N. Y., in 1846, and was educated at the Warwick academy. At 15 years of age he began work at the printer's trade in the office of The Putnam County Courier, then edited by his brother, Capt. Charles E. Benedict, who after serving of the Union army. From there he went to Newburg, where he set type on the old Newburg Telegraph, and thence gravitated to New York city, where, for nearly ten years, he worked in the largest book and job printing concern in the metropolis. After one or two attempts at country newspaper editing, he formed a partnership with his brother, T. E. Benedict, in conducting The Ellenville Press and Banner of Liberty, of which paper he has been sole proprietor for the past three years. He was a member of Typographical Union No. 6, of New York, during his residence in that city, and is a staunch advocate of labor organizations and the rights of workingmen.

**THE GOVERNMENT PRINTING OFFICE.** The mammoth establishment that Mr. Benedict assumes charge is the largest printing office in the world and located a mile north of the Capitol in what was once called "Swampoodle." It requires an army of 2,500 men and women the year round, with a pay roll of about \$135,000 per month to turn out its productions. Over 3,500 tons of paper are fed into the capacious maw of this monster, to be evolved into blanks, pamphlets, maps, elegant bound books, in fact everything possible in the way of printed matter. The capacity of this establishment is practically unlimited and the speed with which it can execute work cannot be excelled anywhere. As congress has ordered the printing of every bill when introduced, and reprinted every time an amendment is adopted, and as some of these bills are amended as often as thirty-seven times the numbers of copies of bills printed during a session of congress amounts to millions upon millions. The copy of a bill or report in congress, making fifty or sixty large printed pages, may be received at 10 o'clock in the morning and in two or three hours the printed and stitched or bound copies will be laid on the desks of members. The Congressional Record reports the doings of congress daily, and contains more matter than two ordinary daily newspapers, and yet let the night session be long or short The Record, containing a verbatim account of the day's doings, will be on each member's desk before the opening of the following day's session. To do this a wagon is kept going day and night collecting copy and returning proofs of speeches to the members for corrections.

The press room contains nearly 100 of the most improved printing presses, from which are delivered each hour about 100,000 sheets of printed matter. Thirty immense ruling machines are in constant use in the bindery, and in the folding room, as elsewhere, the latest and most improved machinery is used to facilitate the work. A brief history of government printing is as follows: In the first session of the First congress, 1789, the printing of bills and journals was done under the secretary of the senate and clerk of the house. In 1794 a specific appropriation was made for "firewood, stationery and printing work," \$10,000. In 1803 the president's message was the first document printed.

In 1810 each house elected its own printer for the session. The printer to congress was now became affluent and entertained handsomely. These also gave rise to the party newspaper organ system. The most noted were: Gales, Seaton, Blair and Rives. The printing of the Twenty-seventh congress cost \$200,000. In 1846 the contract system was adopted. In 1852 the office of superintendent of public printing was created. In 1876 the office was changed from department to public printer, and appointed by the president. Mr. A. M. Clapp, Mr. John D. DeForest and Mr. Sterling P. Rounds were the predecessors of Mr. Benedict. The cost of the government printing is now about \$3,500,000 per annum.

Dr. Bull's Cough Syrup never fails to cure a cough or cold in a short time. Give it a fair trial.

To the October number of Lippincott's Magazine, Joe J. Ellick will contribute an article entitled "Experiences of a Base Ball Empire." Mr. Ellick's experiences, it will be remembered, were of a thrilling nature, as both in Washington and in Philadelphia he barely escaped from the hands of an infuriated mob. He makes a strong plea for justice to the unemployed from press and public players, all of whom, he insists, fail to understand the necessary limitations which his merely human nature imposes upon this much abused personage.

Mr. M. P. SCHROCK, 672 W. Lake St., Chicago, was

## Helpless

from Rheumatism. His physicians feared amputation of the leg would be necessary. He tried ATHELPHOROS, and in two days was cured.

A professor in a medical college once said to his class: "Put your hand in a vice, turn the screw until the pain kills you, and then that rheumatism, turn the screw once more, and that's neuritis, and gentlemen, the medical profession knows no cure for either." That was before the discovery of ATHELPHOROS, which does and will cure both rheumatism and neuritis, and many physicians use it regularly—frankly admitting that they can prescribe nothing else so effective.

Many persons have tried so many so-called remedies, without benefit, that they have no faith to try more, but if you try while to try ATHELPHOROS, if you have any doubts as to its value write for names of parties in your own State who have been cured by its use. Ask your druggist for ATHELPHOROS. If you cannot get it of him we will send it express paid on receipt of regular price—\$1.00 per bottle. ## How to Tell the Time by Night.

(From the Buffalo, N. Y., "Times.")

Perhaps the most ingenious thing in the way of an advertising novelty that has come out for many years, is a unique contrivance issued by the Duffy Malt Whiskey Company, Baltimore, Md., proprietors of Duffy's pure malt whiskey. Unlike most things of the kind, with which the country has been deluged heretofore, this is a decided departure from the usual rut, and aside from being one of the most attractive things we have ever seen, it involves a new discovery in science which is both interesting and instructive. So valuable was this discovery regarded it was awarded a first prize gold medal at the Brussels International Exposition, and it seems almost like prostituting science to put it to advertising purposes as it is something that is invaluable to institutions of learning, and would readily command a good price if put on sale. However, the Duffy people, appreciating its importance, have gotten it out in the highest artistic style, such as will secure for it a permanent place in every house in the country.

The device is called Duffy's Ancient Mariner's Stellar Time-Piece, its object being to furnish a guide whereby the correct time may be ascertained at any hour of the night, by observation of the North Star and three other bright stars near it, the four stars forming a Cross or Crucifix, which revolves round the celestial pole like the hands of a clock. By the aid of the Duffy's device, which represents a miniature firmament and tabular dial, the time can be ascertained almost to the minute which is destined to render it invaluable to Mariners, Hunters, Fishermen and to the masses generally, as after a little practice, even a child will be able to tell the time at night.

Although the device is quite an expensive one, the proprietors intend distributing it free and in time every body in the country will have one. Requests for same by mail, must be accompanied by six cents in postage stamps addressed to their Supply Department, as already they are flooded with applications.

The delivery team of Louis Fox ran away this morning on Clinton street. They were stopped at the Pittsburg freight depot, having done no damage.  
Professor Bishoff, formerly director of the Concordia college in this city, was installed as pastor of the Lutheran church at Bingen, Adams county, yesterday.  
Lake Shore officials say that August earnings were the largest in the history of the company, and this, too, in connection with the fact that those of the Nickel Plate increased in equal ratio.  
The funeral of the late Adam Kuntz occurred yesterday. The G. A. R. men acted as escort to the Odd Fellows and the South Whitley band and Fred Kimball's drum corps were in the line. The interment was at Lindenwood.  
Mr. John Mohr has purchased AL Foote's fine store building, corner of Calhoun and Wayne streets, for \$15,000 cash. This is a very desirable piece of property and Mr. Mohr will improve it. The sale was made by Glutting & Bauer.  
Dr. W. H. Meyers this morning received a letter from London notifying him of his election to membership in the British Medical association. This is quite an honor and one entirely deserved as Dr. Meyers is one of the brightest members in the profession.  
At the Academy this week, "Three Widows" will be presented. This will be followed by "Lost in London," Sarah McVicker, "The Gold King," and Brooks' Opera Co., for a week each in the order named. This is the opening night of this popular play house and a good season is promised.  
James Bixler and Jessie Gaskill were arrested in a room in Mat Glynn's block. They could not flaunt a marriage license in Marshal Meyer's face and were looked up. The woman was at the police court this morning with a babe in her arms and the picture was one to touch a fellow's heart. His honor will not send the woman to jail.  
The Sengerbund society, of this city, and the singing societies from Toledo, Napoleon and Defiance joined in a sang-fest at the Tivoli garden yesterday.  
Capt. C. Hettler, was orator of the day and told how music was mankind's constant companion from the cradle to the grave. The captain welcomed the visitors and all joined in music and song. The City and Defiance bands were heard to fine advantage and the occasion was fraught with good will and many pleasures.

It is time to "shoot" the straw hat. Bird Wiley was at Chicago last week.  
Mrs. Byron Hattersley is visiting relatives at Cleveland.  
Mrs. W. H. Hoffman and children have returned from the east.  
Miss Annie Lowry has returned from a visit to friends at Valparaiso.

The principal business of the council to-morrow night will be the purchase of the Hayden property for park purposes.

The Toledo Tri-state fair closed Saturday and a number of exhibitors took advantage of the special train from Toledo to come here yesterday.  
An attempt was made last night to burglarize the residence of F. M. Randall, at 336 Broadway. The thief dropped something on the back porch and the neighbors heard the noise.  
Dan Hamilton is the alias given by a dude railroad clerk who was arrested for striking ladies across the back with a cane. Officer Franke looked the fresh youth up and his superiors had to bail him out.  
Hon. Charles McCulloch returned home Saturday from northern Michigan. Mr. McCulloch accepts the chairmanship of the democratic county central committee and will at once force a vigorous campaign.  
Hon. Henry Monning will go to Michigan city to-morrow to attend a meeting of the prison directors. Director John C. Shoemaker will ask an investigation of the charges against him for getting printing without consulting the state bureau.  
Numerous "snaps" will be worked in this city this week, but it is hoped with little or no success. Sharpers will come here to get away with some one and a sporting man is authority for the statement that five temporary gambling houses have been fitted up.  
The Indianapolis Journal advocates a uniform two-cent per mile rate for passengers on all railroads, and believes the time has come for the adoption of the same by all roads east and west, and that the rate should be open to people of all classes without discrimination.  
It is thought that some radical changes will be made at the next meeting of the Knights of Labor general assembly. District assemblies will probably be abolished and state assemblies inaugurated in their stead. If this is done the greatest part of the business will be done by the state assemblies, thus relieving the general assembly of extra work.  
Judge Allan Zollars will go to Indianapolis to-night. The supreme court will meet to-morrow. It will find pending on the docket 977 cases, of which number 750 are ready for the action of the court. During vacation 158 cases have been filed. The court as now constituted is able to dispose of 600 cases per year and, making allowance for dismissals, it is now about one year behind the docket. The necessity for an intermediate appellate court, such as has been suggested by Judge Elliott, becomes every term more apparent.  
A suit which promises to end in the sale of the whole Nickel Plate railway and its equipments will be commenced before Judge Jones in Cleveland to-morrow. The suit is a proceeding on the part of the trust of two mortgages, which amount to \$2,500,000, to foreclose and sell the road. The first mortgage of \$1,500,000 is held by the Central Trust Company of New York, and was issued December 1, 1881. The second amounting to \$1,000,000, is held by the Union Trust company and was issued March 1, 1883. Seven attorneys from New York, one from Detroit, Ex-Governor Hoadley, of Cincinnati and twelve Cleveland lawyers will conduct the case.

Saturday evening the grand jury returned an indictment against Scott Swann for shooting with intent to kill. They also indicted Neal Kirkpatrick and Andy McClain for larceny and acquitted James Turner and George Parks. Scott Swann gave \$10,000 bail and was released. #### LOCAL CHAT.

Picked up in the Villages About us.  
An extra edition of the Huntington Democrat was issued for the Warren fair.  
Six newspapers went down last week in their contest with General Adversity. The general is a valiant warrior, and his special delight is to get in his work on the "long felt want" kind of newspapers.  
Mr. P. E. Studebaker, of South Bend, sailed in the Umbria on Saturday, leaving his family in Dresden for the winter. His niece, who came over with him, has been buying a \$6,000 wedding trousseau in Paris. She paid for the bridal veil at one house alone \$1,200.  
It is a notorious fact that not one-half of the convicts buried in the prison cemetery are lying there to-day. The majority of the remains have found their way to dissecting tables almost before the bodies have been in the ground long enough to become cold. In early times there was no trouble in lifting the stiffs, but now if the practice is carried on it has to be kept very quiet.  
A farmer living near Charleston was encountered by two foot pads about two miles from Jeffersonville, while walking out to visit his daughter. The highwaymen demanded his money, and upon his making a show of resistance, one of them fired at him, the ball taking effect in the left leg above the knee. The robbers then fled, being frightened by the outcry made by their intended victim.  
In Indiana there is one liquor dealer to every 63 voters; in Illinois, one to every 45; in Kentucky, one to every 63; in Pennsylvania, one to every 42; in Texas, one to every 99; in New York, one to every 81. Taking the country at large, there is, in the north, one liquor dealer to every 40 voters; in the south, one to every 81 voters; in the territories, one to every 21 voters; in the whole United States, one liquor dealer to every 40 voters.

#### Get Your Fall Hat.

The fall styles for gentlemen's hats are by far the nobbiest ever shown to the trade in this city. The shapes are different from those worn last year and are more neatly made up, being of a medium height, the roll not so heavy, and of a finer material. Messrs. Fitch, Meyer & Co. are showing the prettiest lot and their sales are heavy. They are leaders for gents' fine head wear and handle nothing but the best and most stylish goods. Their gents' furnishing department for fall goods is being stocked and their display in neck wear, under clothing, etc., cannot be surpassed by houses of more pretensions. When you want anything in their line call on them and you will find Fitch, Meyer & Co. pleasant gentlemen to deal with, willing to show goods and offer inducements that will not fail to bring you back again.

#### TELEPHONE LEAGUE.

Formed for the Purpose of Limiting and Taxing the Telephone Monopoly in all the States.

HEADQUARTERS, BOSTON, Sept. 13.  
To the Public of Indiana:—We desire to call your attention to the importance, to the telephone subscribers of the whole country and to the entire people of the United States, of the election soon to take place in your state.  
The law limiting telephone charges in your state have been declared constitutional by your supreme court, an effort, quiet, but backed by unlimited means, is now being made to secure the nomination and election of men pledged to vote for its repeal. A recent circular issued in the interest of the American Bell Telephone Co. says "The agents of the American Bell Telephone Co. now in Indiana are confident of their ability to elect a legislature which will immediately repeal the bill." When this law was passed we were told that no court would hold it to be constitutional, and now that it has been so decided by your highest court, the attorneys of the American Bell, in a book recently published by that company, say "the opinion of the supreme court of Indiana is never quoted with respect in that or any other state."  
The telephone service of your state has been withdrawn or crippled, not because it forced the companies to lose money, but to deter other states from passing similar laws and to punish your people and secure its repeal. Similar laws have been defeated in your state by the most unblushing lies and use of money. We urge you to stand firm, elect men sure to vote against the repeal of this law this year, and next year will see it the law of every state in the land, and the telephone companies yielding, will give us all the service at fair rates.  
The American Bell Telephone Co. holds to-day about \$6,000,000 stock of the companies operating in Indiana for which it has not paid one single dollar. If this law is repealed your telephone rates will be raised far above the old figure to pay dividends on this watered stock.  
We have proof that at the rates formerly charged, a profit of 65 per cent, was earned upon the actual investment. Don't be deceived. Telephones can be operated at 10 per cent. profit under the law as it now stands. Stand by the law, select candidates who will support it, beware of all men whose position on this question is undefined, and the result for us in every state will be good telephone service at low rates, and fair profit to the capital invested. Correspondence with all friends of the cause solicited.

Boston, Mass.

Scrofula diseases manifest themselves in the spring. Hood's Sarsaparilla cleanses the blood, and removes every taint of scrofula.

Scott Lindsey's Sentiments.  
Scott Lindsey formerly of this county, but now marshal of Harper, Kansas, writes THE SENTINEL:  
I wish that I was at your place to cast a vote for Charley Munson and Congressman Lowry and the full democratic ticket at your coming election, but I have the same duty to perform here and I think we will be successful. We are going to elect a full democratic ticket in Harper county this time. My best wishes to the SENTINEL.

## IT SUITS!

Hon. Joe McDonald interviewed.

He Likes Cleveland and Says Indiana Is for Him in 1888 if He Wants the Presidency Again.

The Statesman Going to Make a Brink Campaign for the Hoosier Democracy.

### OUR JOB.

The Hoosier Statesman Talks Politics at New York.

New York, Sept. 13.—Ex-Senator Joseph E. McDonald was asked how Indiana would go this fall, and said: "I think it will undoubtedly go democratic by a large majority. The prospects were never better. The people are thoroughly united, and believe in the successful future of the national democratic party. We have no cause to complain at Mr. Cleveland's policy. Our state is thoroughly satisfied as far as federal patronage is concerned. We do not care anything about civil service reform but we do not care the president for carrying out his letter of acceptance. Indiana heartily indorses the administration; so you see there is no reason why we should not carry the state."

"Is it true that you are a candidate for the United States senate?"

"If the legislature is democratic my name will go before the caucus. We usually do not have candidates for the senate until after the election."

"How will the congressional race be in Indiana?"

"The democrats will carry a majority. As to the next national congressional representation I do not predict a larger majority than we have at present. There may be a little falling off in some of the states. However, I do not think the general result will effect the democratic majority."

"Will you make any speeches this fall?"

"Yes; I shall enter the campaign in my state and work for the success of our ticket."

### ON THE TARIFF ISSUE.

I shall advocate a tariff for revenue, and a reduction on many articles. Wool should go on the free list, and several other articles. Protection? Well, the prohibitionists in my state will draw merely from the republicans. We have defined our position clearly on the liquor question. We are in favor of a license."

"Do you think the president has lost popularity by vetoing private pension claims?"

"On the contrary, he has added to his popularity. It took a man of nerve to veto those bills. Somebody had to do it. There would have been no end to pension claims, many of them without the slightest foundation. Why, our pension list now exceeds twice that of the whole of Europe. It amounts to \$60,000,000, a sum as great as our national expenditure before the war. No, the president has greatly strengthened himself by his action. He will be nominated in 1888, and elected, too. The course he has taken in the main has given satisfaction. It is very hard to predict two years in advance, but from the present outlook I feel sure Mr. Cleveland will certainly be."

### THE COURSE OF THE DEMOCRATS.

On the republican side I think either John Sherman or Senator Allison, of Iowa, will head the ticket. Mr. Blaine has many enthusiastic admirers, and so has General Logan, but I think they will both be beaten by the two western senators. I think President Cleveland can be re-elected without the aid of the stumpwrecks as a party. As individuals their votes will go to swell his majority."

"Do you think the president will change his cabinet before 1888?"

"No, I do not. Mr. Manning, who is one of the ablest members, may resign on account of his health, but I think that President Cleveland has not taken into consideration the possibility of his not being able to complete his term of office."

"Home mention was made of your being offered a cabinet position."

"That was all newspaper gossip, and nothing in it."

"How is the telephone suit coming on?"

"Well, in two years the testimony

perhaps will be taken, as a preliminary to the ondoce litigation to follow. The onus is upon the government, and it has to show that Bell did not invent his telephone and have it properly patented before others."

### IT'S A HUMMER.

The Great Inter-State Fair Surpasses all Expectations and Will Loom up Big.

The great Inter-State fair does not open until to-morrow, but already there are most manifest reasons for saying that the exhibit is going to be the largest and most varied ever seen here before. By noon to-day the fruit shelves were all crowded, and the management are preparing to build additional room. The chicken house is crowded, and other sheds are being fitted up to accommodate the fine poultry. Men are now waiting for room to exhibit their stock and the horse stalls are nearly all occupied. The capacity of the fair buildings must be doubled, as indeed the managers anticipated no such rush as presents itself. The art department, fancy work tables and exhibit by the merchants surpasses all former efforts. So it is in every line and when a stock man drove fifty sheep into the grounds this morning, the fair promoters had to wonder. The speed department is jammed and there are no many good horses in the field that every race must be for blood. It is no exaggeration to say that this is the greatest fair ever held in Indiana and people can see it and satisfy themselves.

### FAIR NOTES.

It's a hummer.

The fair opens to-morrow.

Everybody is going to the fair.

Thursday will be the big day.

There will be a big poultry show.

The shops will all close Thursday.

The weather is clear, cool and delightful.

This will be the biggest fair on record.

An army of men are at work on the grounds.

That horse and exhibition stock is crowding in.

There was pretty lively work on the track this morning.

Every premium offered by the association this year will be taken.

There is a rush being made for eating quarters, lemonade stands, etc.

This is splendid weather for a fair and the railroad promises immense crowds.

The schools will all close two days to give the children a chance to see the fair.

The horsemen say that the track here is the best they have seen yet in the big circuit.

The Christian church people opened their eating house yesterday and fed numerous hungry people.

Numerous lots of cattle, hogs, and chickens arrived Saturday and yesterday and were assigned quarters.

Thursday will be the big day. The balloon ascension is on that date and the occasion will be made a general holiday.

Ford P. Boltz had his horse, George B., on the track last evening and "gave him a whirl," just to keep up a circulation.

Maxwell, of Lexington, Ky., has a string of eight as fine horses as a person would want to look at, already on the ground.

There will be as many entries in the speed department here as there was at Toledo last week, and they had one of the most successful fairs there ever known.

The imported French Norman stallion with a mane that touches the ground, arrived yesterday. He is owned at Marion, Ohio, is nineteen years old and is a wonder to gaze upon.
